The acceleration-of-life insurance benefits offered under these riders may or may not qualify for favorable tax treatment under the Internal Revenue Code of 1986. Whether such benefits qualify depends on factors such as your life expectancy at the time benefits are accelerated or whether you use the benefits to pay for necessary long term care expenses, such as nursing home care. If the acceleration-of-life insurance benefits qualify for favorable tax treatment, the benefits will be excludable from your income and not subject to federal taxation. However, acceleration-of-life insurance benefits payments may be taxable by your state. Tax laws relating to acceleration-of-life insurance benefits are complex. You are advised to consult with a qualified tax advisor about circumstances under which you could receive acceleration-of-life insurance benefits excludable from income under federal law.

Receipt of acceleration-of-life insurance benefits may affect your, your spouse's or your family's eligibility for public assistance programs such as medical assistance (Medicaid), Aid to Families with Dependent Children (AFDC), supplementary social security income (SSI), drug assistance or other public assistance programs. You are advised to consult with a qualified tax advisor and with social service agencies concerning how receipt of such a payment will affect your spouse's or your family's eligibility for public assistance.
